Addendum to Operating Instructions
for
Acton Research Corporation
SP-300i
SpectraPro Monochromator

This SP-300i SpectraPro monochromator is supplied with optional Motorized Slits. When using the 300-749 Hand Held Controller to operate the monochromator, please refer to the instructions located in the separate tabbed section of this manual labeled 300-749 rather than the instructions for the hand held controller located in the SP-300i manual. The 300-749 manual contains the instructions for operation of the motorized slits.
