1. Insert the NI-488.2 CD and choose **Install NI-488.2**.

**Tip** The View Documentation link provides access to NI-488.2 documentation, including detailed hardware installation instructions.

2. When you have completed the software installation, **restart** the computer.

3. Install your GPIB hardware.

**Caution** The GPIB devices and the computer must share the same ground potential.
4. **Ethernet Only**
   After the computer has restarted, run the Add GPIB-ENET/100 Wizard from the NI-488.2 Hardware Installation program.

You can also run the Add GPIB-ENET/100 Wizard from the **National Instruments** > **NI-488.2** program group in the **Start** menu.

5. **Ethernet Only**
   Complete the Add GPIB-ENET/100 Wizard to configure your Ethernet interface.
